WHAT IS IN THE MOON?—The comparative proximity of our own satelite, the moon, has necessarily rendered it an object of the greatest interest, and it has, perhaps, in a greater degree than the other celestial orbs, been subjected to the scrutinizing observation of the telescope. Since the completion of the great instrument of Lord Ross, that nobleman has frequently observed it, and its appearance, as seen by the telescope, is thus described by Dr. Scores by:

"It appeared like a globe of molten silver, and every object of the extent of one hundred yards, was quite visible. Edifices, therefore, of the size of York Minister, or the ruins of Whitbey Abbey, might be easily perceived if they had existed. But there was no appearance of anything of that nature; neither was there any indication of anything like water, or of an atmosphere. There was a vast number of extinct volcanoes, several miles in breadth. Through one of them was a line, in continuance of about one hundred and fifty miles in length, which ran in a straight direction like a railway. The general appearance, however, was like one vast ruin of nature; and many of the pieces of rock, driven out of the volcanoes, appeared to be laid at various distances."

We have here a strong, nay a complete confirmation of the most interesting recent discoveries of the continental philosophers Maelder of Dorpat, and Baer of Berlin, the result of their curious and elaborate observations has been a map of what may now, without a figure, be called a geography of the moon, in which the surface of that satellite has been laid out with as much accuracy as that of our own globe. Of this map, a singular contrivance of human ingenuity, Dr. Nichol has given a reduced copy, besides a number of plates representing on a large scale, special parts of the surface. The general character of the moon is highly irregular, marked by huge mountains and pits, the heighth and depth of which have been accurately measured. About one third part of the surface presented to us is comparatively regular, this portion being plains and not seas, as was formerly imagined. There is no appearance of water; and although astronomers are divided in opinion about the existence of an atmosphere, we are to conclude that the moon is not in its present state, adapted for the abode of organized beings. With regard to the mountains, a great number of them are isolated peaks, such as Teneriffe; mountain ranges, of which some reach a great elevation, are also present in the moon, although not a chief feature in its surface. At least three-fifths of its surface is studded with caverns, penetrating its body, and generally engirt at the top by a great wall of rock, which is serrated, and often crowned by lofty peaks. These caverns, or *craters*, as they are called, vary in diameter from fifty or sixty miles to the smallest visible space, and it is also remarkable that as they diminish in size, they increase in number.—*English Quarterly.*

ADVICE TO CONSUMPTIVES.—In some good advice to consumptives, Dr. Hall says:

"Eat all you can digest, and exercise a great deal in the open air, to convert what you eat into pure healthful blood. Do not be afraid of out door air, day or night. Do not be afraid of sudden changes of the weather; let no change, hot or cold, keep you in doors. If it is rainy weather, the more need of your going out, because you eat as much on a rainy day as you do on a clear day, and if you exercise less that much more remains in the system of what ought to be thrown out by exercise, and some ill result, some consequent symptom, or ill feeling is the issue.

If it is cold out of doors, no not muffle your eyes, mouth and nose in furs, veils, woolen comforters and the like; nature has supplied you with the best muffler, with the best inhaling regulator, that is two lips; shut them before you step out of a warm room into the cold air, and keep them shut until you have walked briskly a few rods and quickened the circulation a little; walk fast enough to keep off a feeling of chilliness, and taking cold will be impossible. What are the facts of the case; look at railroad conductors going out of a hot air into the piercing cold of winter, and in again every five or ten minutes, and yet they do not take cold oftener than others; you will scarcely find a consumptive man in a thousand of them.

It is wonderful how afraid consumptive people are of fresh air, the very thing that would cure them, the only obstacle to a cure being that they dont get enough of it; and yet what infinite pains they take to avoid breathing it, especially if it is cold—when it is known that the colder it is, the purer it must be. Yet if people cannot get to a hot climate they will make an artificial one, and imprison themselves for a whole winter in a warm room with temperature not varying ten degrees in six months. All such persons die, and yet we follow in their footsteps. If I were seriously ill of consumption, I would live out of doors day and night, except it was raining or midwinter, then I would sleep in an unplastered log house.

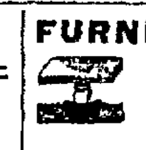

My consumptive friend you want air, not physic; you want pure air not medicated air; you want nutrition, such as plenty of meat and bread will give, and they alone; physic has no nutriment; gasping for air cannot cure you; monkey capers in a gymnasium cannot cure you. If you want to get well, go in for beef and out door air, and do not be doluded into the grave by newspaper advertisements, and unfindable certifiers."

Mr. Hoyt, of the Prairie Farmer, at Madison, is now in London, and he writes this among other things:

It is our opinion, therefore, that the government of the free states of America must carry on the war, not only without sympathy from any of the great powers of Europe—at least without the sympathy of the two nearest and most dangerous powers, England and France—but that there may be a safe reckoning upon the real jealousy of, and secret machinations of one or both of these gerat powers against the cause of the republic. Whether M. Mercier is really in Richmond for the purpose of negotiating an alliance and preparing for the interference of the French government or not, nothing is surer, in our opinion, than that such an interference is hoped for and in process of being planned by leading politicians in this country.

COM. FOOTE.—We were pleased to see Com. Foote in a carriage this morning, enjoying the fresh air. There is yet no material improvement in his health.—*Cleveland Herald.*

IMPERIAL WINE

BITTERS,

ARE made from a pure and unadulterated Wine, which is about double the usual strength of other Wines, and is imported by only one house in the United States. Also, from the following valuable Roots, Herbs, &c., viz: Solomon's Seal, spikenard, Camomile Flowers, Gentian, Wild Cherry Tree Bark, and Bayberry.

WE CHALLENGE

THE WORLD

to produce

THEIR EQUAL!

We do not profess to have discovered some Roots "known only to the Indians of South America," and a cure for "all diseases which flesh is heir to," but we claim to present to the public a truly valuable preparation, which every intelligent Physician in the country will approve of and recommend. As a remedy for

INCIPIENT CONSUMPTION,

Weak Lungs, Indigestion, Dyspepsia, Diseases of the Nervous System, Paralysis, Piles, Diseases peculiar to Females, Debility, and all cases requiring a Tonic, they are

UNSURPASSED!

For Sore Throat, so common among the Clergy, they are truly valuable.

For the aged and infirm, or for persons of a weak constitution—for Ministers of the Gospel, Lawyers, and all public speakers—for Book-Keepers, Tailors, Seamstresses, Students, Artists, and all persons leading a sedentary life, they will prove truly beneficial.

As a Beverage, they are wholesome, innocent, and delicious to the taste. They produce all the exhillarating effects of Brandy or Wine, without intoxicating; and are a valuable remedy for persons addicted to excessive use of strong drink, and wish to refrain from it. They are pure and entirely free from the poison contained in the adulterated Wines and Liquors with which the country is flooded.

These Bitters not only CURE, but PREVENT Disease, and should be used by all who live in a country where the water is bad, or where Chills and Fevers are prevalent. Being entirely innocent and harmless, they may be given freely to Children and Infants with impunity.

Physicians, Clergymen and temperance advocates, as an act of humanity, should assist in spreading these truly valuable BITTERS over the land, and thereby essentially aid in banishing Drunkenness and Disease.

WHAT IS IN THE MOON?—The comparative proximity of our own satelite, the moon, has necessarily rendered it an object of the greatest interest, and it has, perhaps, in a greater degree than the other celestial orbs, been subjected to the scrutinizing observation of the telescope. Since the completion of the great instrument of Lord Ross, that nobleman has frequently observed it, and its appearance, as seen by the telescope, is thus described by Dr. Scoresby:

"It appeared like a globe of molten silver, and every object of the extent of one hundred yards, was quite visible. Edifices, therefore, of the size of York Minister, or the ruins of Whitbey Abbey, might be easily perceived if they had existed. But there was no appearance of anything of that nature; neither was there any indication of anything like water, or of an atmosphere. There was a vast number of extinct volcanoes, several miles in breadth. Through one of them was a line, in continuance of about one hundred and fifty miles in length, which ran in a straight direction like a railway. The general appearance, however, was like one vast ruin of nature; and many of the pieces of rock, driven out of the volcanoes, appeared to be laid at various distances."

We have here a strong, nay a complete confirmation of the most interesting recent discoveries of the continental philosophers Maelder of Dorpat, and Baer of Berlin, the result of their curious and elaborate observations has been a map of what may now, without a figure, be called a geography of the moon, in which the surface of that satelite has been laid out with as much accuracy as that of our own globe. Of this map, a singular contrivance of human ingenuity, Dr. Nichol has given a reduced copy, besides a number of plates representing on a large scale, special parts of the surface. The general character of the moon is highly irregular, marked by huge mountains and pits, the heighth and depth of which have been accurately measured. About one-third part of the surface presented to us is comparatively regular, this portion being plains and not seas, as was formerly imagined. There is no appearance of water; and although astronomers are divided in opinion about the existence of an atmosphere, we are to conclude that the moon is not in its present state, adapted for the abode of organized beings. With regard to the mountains, a great number of them are isolated peaks, such as Teneriffe; mountain ranges, of which some reach a great elevation, are also present in the moon, although not a chief feature in its surface. At least three-fifths of its surface is studded with caverns, penetrating its body, and generally engirt at the top by a great wall of rock, which is serrated, and often crowned by lofty peaks. These caverns, or *craters*, as they are called, vary in diameter from fifty or sixty miles to the smallest visible space, and it is also remarkable that as they diminish in size, they increase in number.—*English Quarterly.*

ADVICE TO CONSUMPTIVES.—In some good advice to consumptives, Dr. Hall says:

"Eat all you can digest, and exercise a great deal in the open air, to convert what you eat into pure healthful blood. Do not be afraid of out door air, day or night. Do not be afraid of sudden changes of the weather; let no change, hot or cold, keep you in doors. If it is rainy weather, the more need of your going out, because you eat as much on a rainy day as you do on a clear day, and if you exercise less that much more remains in the system of what ought to be thrown out by exercise, and some ill result, some consequent symptom, or ill feeling is the issue.

If it is cold out of doors, no not muffle your eyes, mouth and nose in furs, veils, woolen comforters and the like; nature has supplied you with the best muffler, with the best inhaling regulator, that is two lips; shut them before you step out of a warm room into the cold air, and keep them shut until you have walked briskly a few rods and quickened the circulation a little; walk fast enough to keep off a feeling of chilliness, and taking cold will be impossible. What are the facts of the case; look at railroad conductors going out of a hot air into the piercing cold of winter, and in again every five or ten minutes, and yet they do not take cold oftener than others; you will scarcely find a consumptive man in a thousand of them.

It is wonderful how afraid consumptive people are of fresh air, the very thing that would cure them, the only obstacle to a cure being that they dont get enough of it; and yet what infinite pains they take to avoid breathing it, especially if it is cold—when it is known that the colder it is, the purer it must be. Yet if people cannot get to a hot climate they will make an artificial one, and imprison themselves for a whole winter in a warm room with temperature not varying ten degrees in six months. All such persons die, and yet we follow in their footsteps. If I were seriously ill of consumption, I would live out of doors day and night, except it was raining or midwinter, then I would sleep in an unplastered log house.

My consumptive friend you want air, not physic; you want pure air not medicated air; you want nutrition, such as plenty of meat and bread will give, and they alone; physic has no nutriment; gasping for air cannot cure you; monkey capers in a gymnasium cannot cure you. If you want to get well, go in for beef and out door air, and do not be deluded into the grave by newspaper advertisements, and unfindable certifiers."

Mr. Hoyt, of the Prairie Farmer, at Madison, is now in London, and he writes this among other things:

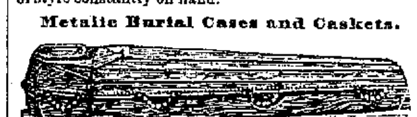

It is our opinion, therefore, that the government of the free states of America must carry on the war, not only without sympathy from any of the great powers of Europe—at least without the sympathy of the two nearest and most dangerous powers, England and France—but that there may be a safe reckoning upon the real jealousy of, and secret machinations of one or both of these gerat powers against the cause of the republic. Whether M. Mercier is really in Richmond for the purpose of negotiating an alliance and preparing for the interference of the French government or not, nothing is surer, in our opinion, than that such an interference is hoped for and in process of being planned by leading politicians in this country.

COM. FOOTE.—We were pleased to see Com. Foote in a carriage this morning, enjoying the fresh air. There is yet no material improvement in his health.—*Cleveland Herald.*

DR. J. BOVEE DODS'
IMPERIAL WINE
BITTERS,
ARE made from a pure and unadulterated Wine, which is about double the usual strength of other Wines, and is imported by only one house in the United States. Also, from the following valuable Roots, Herbs, &c., viz: Solomon's Seal, Spikenard, Camomile Flowers, Gentian, Wild Cherry Tree Bark, and Bayberry.
WE CHALLENGE
THE WORLD
to produce
THEIR EQUAL!
We do not profess to have discovered some Roots "known only to the Indians of South America," and a cure for "all diseases which flesh is heir to," but we claim to present to the public a truly valuable preparation, which every intelligent Physician in the country will approve of and recommend. As a remedy for
INCIPIENT CONSUMPTION,
Weak Lungs, Indigestion, Dyspepsia, Diseases of the Nervous System, Paralysis, Piles, Diseases peculiar to Females, Debility, and all cases requiring a Tonic, they are
UNSURPASSED!
For Sore Throat, so common among the Clergy, they are truly valuable.
For the aged and infirm, or for persons of a weak constitution—for Ministers of the Gospel, Lawyers, and all public speakers—for Book-Keepers, Tailors, Seamstresses, Students, Artists, and all persons leading a sedentary life, they will prove truly beneficial.
As a Beverage, they are wholesome, innocent, and delicious to the taste. They produce all the exhilarating effects of Brandy or Wine, without intoxicating; and are a valuable remedy for persons addicted to excessive use of strong drink, and wish to refrain from it. They are pure and entirely free from the poison contained in the adulterated Wines and Liquors with which the country is flooded.
These Bitters not only CURE, but PREVENT Disease, and should be used by all who live in a country where the water is bad, or where Chills and Fevers are prevalent. Being entirely innocent and harmless, they may be given freely to Children and Infants with impunity.
Physicians, Clergymen and temperance advocates, as an act of humanity, should assist in spreading these truly valuable BITTERS over the land, and thereby essentially aid in banishing Drunkenness and Disease.

The Daily Gazette.

City of Janesville.

Saturday Evening, June 21, 1862.

Official Paper of the City.

Forever float that standard sheet!
Where breathes the foe but falls before us?
With Freedom's soil beneath our feet,
And Freedom's banner streaming o'er us!

Freedom to the Territories.

The president has signed the bill declaring that there shall be neither "Slavery, nor involuntary servitude in any of the territories of the United States." We of this day may think this is progress and be thankful for it, but the words are as old as the days of Jefferson, who applied them to all the territories *then* belonging to the nation. We are only "returning to our original position."

The Illinois Constitution Beaten.

The Chicago Tribune, of this morning, contains returns from eleven counties in Egypt, in all of which the falling off on the vote for Douglas is from twenty to one hundred per cent; four of them give majorities against the constitution. The Tribune regards these returns as conclusive of its defeat. The Times blowed too soon and much too hard, when it thought success certain. Its "victory of gigantic proportions" has collapsed into a disgraceful rout of the pro-slavery democracy. Its prediction that, "as Illinois pronounced yesterday, so will she pronounce in November," will, no doubt, be verified. The supposed success in Illinois had the effect to raise the hopes of the used up party leaders all through the west, and for some days they have been in high feather over their prospects of annihilating the republicans, but they are now bitterly disappointed, and bewail in secret the blasting of their hopes.

The Fruits of Conciliation.

Is not the policy of conciliating the rebels about "played out"? From the beginning of the rebellion to this time, their "property" of all kinds has been guarded and protected with scrupulous care, especially their human chattels. Our soldiers go hungry in sight of abundance of food; our sick and wounded lie in damp unwholesome tents near by the luxurious homes of rebels in arms; our brothers and friends are stricken down, daily, by over work in camps and upon entrenchments in a disease engendering climate, when thousands of "contrabands" are ready and eager to do their work for them; all this, that rebels may not be offended, or that half-sympathizing "Union men," north and south, may not be so irritated, that they will be entirely rebel in their opinions and influence. Halleck's "Order No. 3" has been tried in the west, and McClellan has followed the same policy in the east, and yet the rebels are not conciliated. We have reason to believe that they attribute all this consideration shown to them and their "institution" as an evidence of cowardice on our part. Because we do not scourge them with all the evils of war, they scorn us as imbeciles. For fifteen months we have made war upon them, endeavoring all the time to hurt them as little as possible, that our "erring brethren" might return to us in a fraternizing mood; and what is the *fruit* of this policy? Is there a single instance of a traitor converted or reclaimed from treason? We do not know of one. Has not this policy been tried long enough? Has not the old man thrown grass at the young scape grace in the apple tree a sufficient length of time to induce the venerable gentleman to try what virtue there is in stones? This is coming to be the opinion of a great many "plain people," and they hope to see a changed policy soon. While they so believe, they are still patient under the other fruitless method so long pursued, and will withhold nothing from the government, necessary to the prosecution of the war even upon principles that do not seem to them to pay. These "plain people" want the rebels struck where they are weakest—they want the property of traitors taken and used whenever and wherever necessary to accomplish the suppression of this infamous rebellion, without reference to any "institution" which stands in the way, whose destruction may aid in saving the life of the nation. They believe they should be treated as *enemies in war*, and that they should take *all* the responsibilities of that position—no more, no less.

THE MONITOR.—This is the title of a democratic paper, the publication of which has just been commenced in this city by Palmer Brothers & Co. The mechanical appearance of the paper is neat and creditable. Before we take further notice of our cotemporary we should like an explanation of the article headed, "Not Guilty." Do you charge us with "conspiracy and rebellion" against the government? Such seems to be the drift of the article referred to. We want to know what you mean, in distinct and unmistakeable language, leaving nothing covered up by dark insinuations. It will not require a long, equivocating reply, but you can answer, yes or no, as your intention and meaning is. We shall then know whether to treat you as a courteous opponent, or an unscrupulous personal and political enemy.

ILL.—Ex-President Van Buren, (now eighty years old,) is suffering from a dangerous affection of the throat, or bronchial organs.

Gen. Butler's General Order, No. 28.

The New Orleans Delta publishes the following order from Gen. Butler relative to the women—explanatory and re affirmatory of the famous general order No. 28:

HEADQUARTERS DEPARTMENT OF THE GULF, NEW ORLEANS, May 16th, 1862. }

SIR. There can be, there has been, no room for misunderstanding General Order No. 28.

No lady will take any notice of a strange gentleman, and *a fortiori* of a stranger, simply in such form as to attract attention. Common women do.

Therefore, whatever woman, lady or mistress, gentle or simple, who, by gesture, look or word, insults, shows contempt for, thus attracting to herself the notice of any officers and soldiers, will be deemed to act as becomes her vocation as a common woman, and will be liable to be treated accordingly. This was most fully explained to you at my office.

I shall not, as I have not, abated a single word of that order; it was well considered; *if obeyed, will protect the true and modest woman from all possible insult. The others will take care of themselves.*

You can publish your letter, if you publish this note, and your apology.

Respectfully, BENJ. F. BUTLER,
Major General Commanding.
JNO. T. MONROE, Mayor of New Orleans.
A true copy.
P. AD FORTIER, Clerk to Mayor.

THE 12TH AND 13TH REGIMENTS.—A soldier belonging to the 12th Wisconsin, writing to the Madison Journal says that their present camp is on the Obion river, six miles south of Union City, Tennessee, where they are rebuilding a railroad bridge, and will most likely stay there some weeks. The 13th is with them. He says:

The 15th Wisconsin and 7th Wisconsin Battery have come to Union City since we left. Every foot of our march since leaving Columbus, has been through very heavy timber, with but few clearings, and these occupied by a most ignorant people. One woman asked a soldier what state Wisconsin was in. Many had fled from their homes at our approach, and they were *losers* by it I assure you. Passed several wheat fields in some of which harvesting was progressing, but the tools and manner of using them provoked extreme mirth among the boys, yet the poor citizens acknowledge that they had never heard of any other but the old fashioned "pigeon-wing" cradle, and as for a two horse reaper, you might as well have spoken a of flying reaper. Everything is one hundred years behind us in Wisconsin, and the boys are drawing most unfavorable comparisons between them,

Oh, there's nothing like Wisconsin,
My loved Wisconsin home.

ALL SORTS OF PARAGRAPHS.

HUMPHREY MARSHALL.—The Washington Republican says it knows positively that Humphrey Mashall, with additional forces from East Tennessee, has been lately in the valley of Virginia.

☞ Vincent Colyer the teacher of negro children at Newberne, North Carolina, sailed from Mew York on Monday, to return to that place, where he will for the present devote himself to the white children.

FORT MORGAN NOT CAPTURED.—A Washington dispatch say that there is no truth in the report of the capture of Fort Morgan. Dates to the navy department from Mew Orleans and Ship Island are several days latter than the date of the alleged capture.

ANOTHER IRON CLAD STEAMER.— On Tuesday, at Jersey City, the keel of another monster iron clad war vessel was laid, and the work on her is to continued day and night until she is finished by a force of nearly 500 men. The plan is, in many respects, similar to the Monitor. She is to be an iron-clad shot-proof steam floating battery, to be constructed with steam machinery and turret, completely ready for service.

A COOL OFFER.—Boulton, the man who is to suffer death at Niagara, on the gallows, has written a letter to a medical gentleman of that town, offering to sell him his body after his death.

The St. Louis Democrat says that men are at large in Missouri who boast that they can take the oath of allegiance at breakfast, dinner and supper, and "clean out a Lincolnite to go to bed on."

The sugar beet, so successful in France, has been planted in Illinois, and a thousand acres of it will be grown this years.

The navy of the Mississippi river will soon number one hundred war vessels, consisting of gunboats, mortar boats and rams,

☞ A resolution has passed in the house of representatives, on the motion of one of those members, who smell a negro afar off, inquiring if Gen. Banks permitted Africans to ride in the wagon train, while soldiers were compelled to walk. A correspondent of the New York Herald answers the inquiry in advance. Gen. Banks, it appears, permitted a little colored girl, who had walked thirty miles, to ride on a caisson. That was a small foundation for a congressional resolve.

☞ A couple of speculators at Nashville have been brought up with a jerk by Gen. Mitchell. They visited some plantations; said they had orders from General Mitchell to procure cotton; offered $20 per bale; if that was not accepted they would take the cotton anyhow. They were successful in some cases; but the matter was reported to the general, who brought up the sharpers, compelled them to pay the planters $80 per bale, and having done that they were thrown into jail for lying and swindling.

THE PROPER CREDIT GIVEN.—The special correspondent of the Chicago Tribune, at Corinth, thus corrects a misstatement previously made in relation to the charge upon the enemy's works by our 8th regiment on the 28th May, near Corinth:

In a narrative of the events preceeding the occupation of Corinth, I learn that credit was given to the 5th Minnesota for a brilliant bayonet charge, which in reality belonged to the 8th Wisconsin, Col. Murphy. The information previously telegraphed was derived from Major Love of the 2nd Iowa cavalry.

Judge Edwin Wheeler, of Oshkosh, is holding the present term of the Circuit Court at Janesville. His fair and impartial manner in the trial of causes, and his ability and soundness as a judge have won for him commendation and general respect from the members of the bar and suitors at court. It has been quite a business term —a large number of criminal and civil cases having been disposed of.—*Beloit Journal.*

BY WISCONSIN STATE TELEGRAPH LINE.
Office in Union Passenger Depot

Last Night's Report.

WASHINGTON, June 20.

The president has approved of the bill securing freedom in all the present as well as the future territory of the United States.

The secretary of war, in response to the resolution of the house, says that he is directed by the president to inform that body that measures have been taken to appropriate for hospital purposes, for the benefit of our soldiers, Gen. Lee's mansion house and premises.

FORT MONROE, June 19.

The pretended Union citizens of Norfolk have been acting in a manner, of late, to prejudice many against the cause. Instead of remaining quiet and peaceable they get into brawls and fights. Such men are set down as office seekers. Gen. Viele has determined to punish the offenders.

WINCHESTER, June 20.

A number of sick and wounded soldiers from Gen. Shield's command arrived here to-day. It is stated that they are to be sent forward to Frederick or Harrisburg. Nothing of interest has been announced from Gen. Fremont's department.

MEMPHIS, June 18.

The Richmond Dispatch in an account of a reconnoisance under Gen. Stewart, on the 15th says:

He made a circuit through the federal lines from Richmond via Hanover Court House, Old Church and Tunstalls to James river and back to the city. Captured 175 prisoners and 300 horses and mules.

PHILADELPHIA, June 20.

A private letter, received here, states that Gen. Buel has started with his whole army for East Tennessee, via Huntsville. Another private letter from New Orleans says the report published in New Orleans of the surrender of Fort Morgan is incorrect.

WASHINGTON, June 20.

The president has nominated to the senate Col. Jno. Cochrane and Gustavus Adolphus Scrogg, both from New York, to be brigadier generals of volunteers.

Gen. McDowell, when thrown from his horse, Wednesday, was so stunned that it was feared the accident would prove fatal, but the report to day concerning him is that he will not long be delayed in resuming the saddle.

Dispatches have been received here that on the 17th inst. the rebels opened fire upon our ships of war in James river, from the bluff at City Point, by artillery and small arms, but our squadron returned the attack with shells and schrapnels, silencing and driving back the rebel force.

CHICAGO, June 20.

Returns from the election on Tuesday come in very slowly. Dispatches from some southern counties, to-night, renders it nearly certain that the new constitution is defeated. The majority against it in the northern part of the state is thus far 23,000.

WINCHESTER, June 19.

Advices from Front Royal state that Shields had succeeded in concentrating his army at Strasburg. His rear guard left Suray one hour before it was entered by Ewell's advancing column. It is believed that Ewell now occupies Luray with a heavy force. Arrivals, to-night, from New Market bring intelligence that Fremont was about advancing seven miles south of Mount Jackson, opposite the gap, in the Massanitten Mountains through which a road leads to Luray. Jackson is believed to have a large force of light troops in Harrisonburg, and another body at or near Port Republic. Prisoners report White's division of 1,500 within supporting distance of Port Republic. At the battle of Port Republic the 7th Louisana and 7th Indiana were opposed to each other at pistol range. The former left the field having only 36 men unhurt.

MEMPHIS, June 18, P. M.

A squad of five confederate cavalry was captured by our pickets in the suburbs of the city yesterday. They belonged to Jackson's cavalry, which has been engaged in burning cotton in the border counties of Mississippi.

Col. Slack and Provost Marshal Gould have given official notice, this a. m., that persons who insult or use violence towards loyal citizens will be shot down on the spot. Four hundred and ten persons, two-thirds of whom had been confederate soldiers, took the oath yesterday.

An extravagant rumor was current yesterday that there had been a fight at Vicksburg, in which the rebel gunboat Arkansas coming out of the Yazoo river, had run into and sunk the United States sloop-of-war Brooklyn.

It is definitely ascertained now that Grenada is being evacuated, and that Beauregard is stationed about 10 miles south of Meridian, Miss., on the M. & O. railroad. He has about 35,000 men.

The rebels are taking everything in the shape of railroad rolling stock with them, and it will be destroyed sooner than surrendered.

Southern advices, through southern sources, *from Virginia*, consist principally of a great victory claimed for Jackson.

WASHINGTON, June 20.

A deputation representing the society of Progressive Friends, mostly of Philadelphia, presented a memorial to the President to day, asking him to issue a proclamation *abolishing slavery throughout the land.*—The memorialists reminded the President of his speech in 1858, in which he said he did not believe that this country could remain half slave and half free, but either the lovers of slavery or the lovers of freedom must eventfully succeed in making the nation all free or all slave. The President said; *"I never said anything after more careful consideration. My opinions are the same now."*

The deputation were much gratified with the President's response, and told him they should support the administration.

Col. Turchin, 18th Illinois, Col. Briggs, of Massachusetts, and Col, John Cochrane of New York, have been nominated brigadier generals.

The committee of conference on the tax bill would have reported to the house to day but for the early adjournment. There has been no agreement on the question of repealing the direct tax of the law of the extra session. In the Senate a number favor the repeal and are opposed in the House. The question will be left to the two houses to decide.

There has been no motion to reconsider the passage of the resolution paying Gales & Seaton the $35,000, although strenuous efforts were made and offers looking to such purchase.

The committee on the conduct of the war resumed their labors to day, examining six witnesses. Among them was Gen. Doubleday. The general subject of inquiry was as to rebel property and its treatment by our generals. The mayor of Alexandria stated before the committee that there were not more than 600 loyal persons in the city. He proposed the draft of a bill providing that all disloyal persons who left Alexandria before Ellsworth was killed, and have since returned, be required to take the oath of allegiance under penalty of banishment from the city or imprisonment.

The mayor also called on the secretary of war to urge the confiscation of property worth half a million, belonging to one Dangerfield, a notorious rebel, who is believed to have communications with the enemy. The secretary of war said he gave Dangerfield a pass within our lines on the word of Reverdy Johnson, his father-in law, and other well known loyal persons, but would investigate the matter.

The new tariff introduced to-day imposes duties fixed in conformity with the tax bill. One agreed upon by the committee of conference on cotton, is fixed at half a cent per pound.

MEMPHIS, June 19, via CAIRO, 20.

Special to Chicago Tribune.—The Argus publishes Chattanooga news to the 13th inst. from Mobile papers; it says the enemy's force of infantry, cavalry and artillery under command of the Federal Morgan, is reported to have crossed Big Creek Gap yesterday. This movement brings them into Powell's Valley, twenty miles west of Cumberland Gap, thus threatening that point in the rear as well as Knoxville. Our forces are preparing to meet them. 500 of the enemy's cavalry were reported at Battle Creek, this morning, 27 miles from Chattanooga on the opposite side of the river. It is supposed that the enemy's intention is to invade East Tennessee from both sides at chief points. Every effort will be made to hold Chattanooga.

ST. LOUIS, June 20.

Our merchants are beginning to receive word that the first efforts to renew trade with Memphis have been over-done. Many articles are as cheap there under the influence of rivalry between St. Louis, Cincinnati and Louisville, as here. While cotton and sugar are held at New York prices, and only Tennesse money is available, and that only by converting into sugar or cotton that even this can be used.

Forty prisoners from Gen. Curtis' army came in to-day by the Iron Mountain railroad. One of them was formerly a land agent of the government, who turned over the funds to the rebels when Arkansas seceded.

To-Day's Report.

[Reported Exclusively for the Daily Gazette.]

MORNING DESPATCHES.

SEVEN PINES, June 18.

Tribune's correspondence.—At noon, to-day, intelligence was communicated from the front that the enemy, 30,000 strong, was in line before Hooker's advanced position. At half past four o'clock, under Hooker's order, the 16th Massachusetts went into the deep swampy road, and other regiments took up the line of battle upon the edge of the timber, out of which burst upon us unequal numbers and death on the 31st of May. The musketry fire was soon sharp within the leafy fastness, sharp and strong. Bramhall's battery sent spiral case shot over the wood into the rebel picket ground to assist the infantry skirmishers. This artillery fire was not replied to for a half an hour, and then only from the far right. It was Armsted's brigade that was in front of us, to day. In one spot six rebel dead lay together. We drove their whole picket line in half a mile. Three men of the 16th were killed and eight wounded.

RICHMOND, WEDNESDAY, June 18.

Times correspondent.—Another fine day. Every day of sunshine advances the fall of Richmond though three days rain might postpone it essentially. The roads are becoming hard, the surface of the earth in the fields, except in low spots is practicable for artillery. We had very brisk picket firing last night in front of a point half a mile north of Fair Oak's station. Our side sustained no damage. This morning everything is quiet again. It is reported by deserters that heavy reinforcements have been sent from Richmond to Jackson in the Valley of the Shenandoah.

Another correspondent writing some under the date says;

I am positively assured by parties who are reliably informed, that the life of the arch traitor Jeff Davis is in extreme danger. The rebels are looking upon him with the utmost suspicion. It was even avered that he was prevented by an armed force from escaping out of Richmond. He is the object of general distrust. Hand bills in every variety are displayed all over the city denouncing Jeff. Davis, and applying to him ridiculous and opprobious epithets. The rebels declare it is the intention of Davis to desert them. Numerous persons have been arrested and confined for rebelling against the authorities at Richmond.

WASHINGTON, June 20.

Special to Tribune.—The Pacific railroad bill passed the Senate, to-day, with five negative votes. The main route which it fixes is to commence at a point on the 100th meridian of longitude within the territory of Nebraska. Of the branches, one commences at Sioux City, and another point on the western boundary of Iowa, which will probably be at or near Omaha City, or the mouth of Platte River. Both of these branches to be constructed by the Union Pacific Company, which constructs the main road. The Kansas branch commencing opposite Kansas City, is to be constructed by a Kansas company, and with this branch the Hannibal and St. Joseph road is authorized to form a connection. The main road is to run by the most direct and practicable route, to be located subject to the approval of the President. By the House bill the road was to commence on the 102d meridian, and the terminus was not necessarily within the territory of Nebraska, but probably the House will agree to the Senate amendment. There is little doubt of the final passage of the bill, substantially as passed by the Senate.

The Herald's Washington dispatch says it is now definitely settled that congress will adjourn between the 1st and 10th of July. The first instance of the arrest of a colored man for abetting the enemy occurred to-day. It had been stated that he volunteered as a guide and spy for Jackson in his late advance. He was confined for further investigation. Gen. Sigel has been in command of the Shenandoah department during the temporary absence of Gen. Banks, who returns to-morrow. The bridge over the Potomac at Harpers Ferry has been rebuilt, and cars run regularly.

NEW YORK, June 21.

The government has no official intelligence confirming the report of the capitulation of Fort Morgan near Mobile.

FREDERICKSBURG, June 19.

In the fight at Port Republic Col. Carroll's artillery used nothing but canister and grape, and when the enemy came too near to use these the men used their revolvers with telling effect. Col. Carroll led three respective charges to the support of the 6th Indiana, driving the enemy back.

AFTERNOON DESPATCHES.

MEMPHIS, June 19.

An expedition composed of the gunboats St. Louis, Lexington, Canestoga and Mound City, accompanied by transports carrying the 43d and 46th Indiana regiments, under Col. Fitch, was sent from here some days since for the purpose of *removing* obstructions from White River. On the 17th the expedition reached St. Charles, 85 miles above the mouth, where rebels had erected a battery. An engagement ensued lasting an hour and a half. While the gunboats engaged the battery the troops under Col. Fitch landed a short distance below, and proceeded to storm the place. During the cannonading a ball entered the boiler of the Mound City, causing a fearful explosion and loss of life. The crew consisted of 175, of whom nearly 125 were killed and wounded. The following officers are among the killed: John Kinzie, Jas. Scoville, Jno. Green, Henry R. Brown, Joseph Nixon, Jno. Coxie and Capt. Kilty. The flag officer is badly scalded, and it is thought he will recover. Col. Fitch's charge upon the battery was a perfect success, driving the enemy out at the point of the bayonet. The rebel loss was 125 killed and wounded and 30 prisoners. Col. Fitch's loss was small.

Gen. Halleck has occupied Halley Springs.

CAIRO, June 21.

Col. Ellet, of the ram fleet, died here this morning, from wounds received in the engagement before Memphis.

BOSTON, June 21.

Passenger depot of the Eastern railroad was destroyed by fire, to day.

WASHINGTON, June 21.

Maj. Gen. Pope, who has so greatly distinguished himself by his operations in the west, is expected shortly to be in Washington, at the invitation of the government.

FORT MONROE, June 20.

The fleet in James river remains as previously reported, quietly at anchor above City point. Gen. Dix proceeded to New Point Comfort, this morning, to make arrangements for the new hospitals there. This, as well as White House Point, is in his lines.

WASHINGTON, June 21.

Yesterday a delegation of Progressive Friends of Philadelphia called on the president and presented a memorial, signed numerously, for the universal emancipation of slaves. The president replied to the accompanying address, as a gentleman who was present remarked, in guarded language.

The committee of conference on the bill to provide internal revenue have nearly accomplished their report.

NEW YORK, June 21.

The United States gunboat Connecticut, Commander Woodhull, arrived this morning from ports on the southern coast, bringing dates from Mattagorda Bay to June 2d, Mobile Bar 7th, Pensacola 8th, Cedar Keys, Tampa Bay and St Marks 9th, Key West 14th, Port Royal 18th, and Fort Monroe 20th. She brings a large mail from the squadron and 67 sick and wounded from the various ports, principally those from New Orleans, who were wounded in capturing the forts below that place. Nothing of importance had transpired at Mattagorda Bay. The mortar boats were preparing to take the forts at Mobile. At Cedar Keys all was quiet. General Branon, with his entire force, had been ordered from Key West to Hilton Head.

CORINTH, June 19.

The telegraph north was prostrated in the early part of the week by heavy storms. Our army has returned from Boonville and now occupies a more southern position.—General Pope gone north on a furlough.

The Memphis and Charleston railroad is in running order, eastward to Tuscumbia, and westward to Cypress Creek, 50 miles from here. The Mobile and Ohio railroad running north to Jackson, and railroad communication open to Grand Junction via Jackson. The road west from the Junction is reported badly damaged. All railroad telegraphs are in good condition.

Major General Ord, Brig. Generals Hulvin and Hamilton have arrived. Considerable union sentiment exists in western Tennessee, especially in Boliver and Jackson. Beauregard's army at last accounts was at Okolona, 80,000 strong, 20,000 men under Ruley Smith at Chatanooga, 15,000 under Price and Van Dorn, at Fulton, and a small cavalry force at Grenada, Mississippi.

From the Albany Evening Journal.
JAMES ISLAND, S. C.
EIGHT MILES BELOW CHARLESTON, June 7. }

DEAR M.—We arrived at this place on Tuesday last, at 3 p. m. Our company was advanced as skirmishers as soon as we landed, and very soon fell in with the rebels: in fact they went out through the back door as we went in the front. We were very close on them, and in some places our appearance was so sudden that they ran and left a number of their rifles. We kept advancing until they were driven back four miles, when we were in full sight of Charleston. A line of pickets was established and we fell back a little. The next day we advanced. The 28th Massachusetts had a skirmish with the rebels, but they did not stand the enemy's fire. Orders were then sent to companies C and E of our regiment (79th) to advance. We did so, for a short distance, without firing, and then drew up and gave them a full volley, with the order "double quick—charge!" Our men, with a shout, gave them a charge that drove them like sheep. These two companies gained more than the 28th lost.

All this time we were under heavy fire of infantry and shell, some of the latter coming closer than was comfortable. As for rifle balls, they were singing round us all the time.

After driving the enemy back, we took a rest. I was sent out with three other men to reconnoitre. After going three-quarters of a mile, I discovered a group—six cavalry and one infantry. We opened fire and drove them back. Three more of our men came and joined us. I deployed them, and, when just ready to advance, one of General Stevens' staff rode up with orders for me to fall back.

About half an hour after, we discovered a battery of three guns. We took three companies and started to capture it, taking the ropes which the rebels had used for drawing them in position. This was done in fine style, putting one company to each gun, and started on in fireman fashion. Such hallooing, and "Give way, boys!" I never heard in all my experience in engine racing. We were cheered at every point as we passed by the rest of our men. We have the guns in camp, and to say our boys are proud of them would be unnecessary.

We had plenty of visitors, including Gens. Benham, Hunter and Wright; the latter arrived with his brigade. Our forces here are about 10,000, all told. Prof. Lowe is here with his baloon, which he is now inflating, and will make a reconnoisance to-day. We will have plenty to do until we get in Charleston. Fort Sumter is in full view, with a rebel flag flying over it. My prayer is that the glorious stars and stripes may replace it, which, I have no doubt, will be soon. Respectfully, yours,

J. KINNEAR, Co. E. 79th Reg.

THE WHOLE TRUTH ABOUT IT.—There seems to be some misapprehension on the part of the public, relative to the objects and results of Gen. Negley's recent expedition to Chattanooga. Its object we understood, was simply to make a demonstration in force on that point, for the sake of the effect which it was reasonable to suppose it would have on that portion of the rebel army stationed at Cumberland Gap. He whipped and routed Adams in Sweden's Cove, and taking position on this side of the river, opposite Chattanooga, he made them *skedaddle* out of the city in true southern style. They burnt the railroad bridges as they fled to prevent a pursuit never intended to be made. The federals did not cross the river into the city, but returned to Huntsville.

About 80 pestilent rebel citizens of that section were arrested, as has been before stated, and are now at Shelbyville, we believe. So, it will be seen, that East Tennessee has not been liberated, and it is little less than cruel mockery on the part of our more northern cotemporaries to publish it.

FEDERAL TROOPS ENGAGED AT CHATTANOOGA.

The federal forces engaged in the second day's fight at Chattanooga, were the
Edgarton Ohio Battery.
Hewitt's Kentucky Battery.
Ninth regiment Michigan infantry, Col. Parkhurst.
Thirty-eighth Indiana infantry, Colonel Scribner, and
First Wisconsin infantry, Maj. Brigham.

This day's fight lasted six hours, and resulted in the enemy abandoning their battery and evacuating the city. The gallant conduct of our officers and men is everywhere calling forth commendations.—*Nashville Union, June 17.*

JACKSON'S STATUE AT MEMPHIS.—A correspondent writing from Memphis, June 6th, says:

"Passing through Court Square we came upon the statue of Jackson, defaced at night a year ago, among the opening acts of secession's ill-played tragedy. Its inscription, 'The Federal Union, it must and shall be preserved,' has been marred by a chisel, the word 'Federal' and first two letters of 'Union' being chipped out. The features of the old hero, with their determined lines, are yet undefaced."

The Daily Gazette.

City of Janesville.

Saturday Evening, June 21, 1862.

Official Paper of the City.

Forever float that standard sheet!
Where breathes the foe but falls before us?
With Freedom's soil beneath our feet,
And Freedom's banner streaming o'er us!

Freedom to the Territories.

The president has signed the bill declaring that there shall be neither "Slavery, nor involuntary servitude in any of the territories of the United States." We of this day may think this is progress and be thankful for it, but the words are as old as the days of Jefferson, who applied them to all the territories *then* belonging to the nation. We are only "returning to our orginal position."

The Illinois Constitution Beaten.

The Chicago Tribune, of this morning, contains returns from eleven counties in Egypt, in all of which the falling off on the vote for Douglas is from twenty to one hundred per cent; four of them give majorities against the constitution. The Tribune regards these returns as conclusive of its defeat. The Times blowed too soon and much too hard, when it thought success certain. Its "victory of gigantic proportions" has collapsed into a disgraceful rout of the pro-slavery democracy. Its prediction that, "as Illinois pronounced yesterday, so will she pronounce in November," will, no doubt, be verified. The supposed success in Illinois had the effect to raise the hopes of the used up party leaders all through the west, and for some days they have been in high feather over their prospects of annihilating the republicans, but they are now bitterly disappointed, and bewail in secret the blasting of their hopes.

The Fruits of Conciliation.

Is not the policy of conciliating the rebels about "played out"? From the beginning of the rebellion to this time, their "property" of all kinds has been guarded and protected with scrupulous care, especially their human chattels. Our soldiers go hungry in sight of abundance of food: our sick and wounded lie in damp unwholesome tents near by the luxurious homes of rebels in arms; our brothers and friends are stricken down, daily, by over work in camps and upon entrenchments in a disease-engendering climate, when thousands of "contrabands" are ready and eager to do their work for them; all this, that rebels may not be offended, or that half-sympathizing "Union men," north and south, may not be so irritated, that they will be entirely rebel in their opinions and influence. Halleck's "Order No. 3" has been tried in the west, and McClellan has followed the same policy in the east, and yet the rebels are not conciliated. We have reason to believe that they attribute all this consideration shown to them and their "institution" as an evidence of cowardice on our part. Because we do not scourge them with all the evils of war, they scorn us as imbeciles. For fifteen months we have made war upon them, endeavoring all the time to hurt them as little as possible, that our "erring brethren" might return to us in a fraternizing mood; and what is the *fruit* of this policy? Is there a single instance of a traitor converted or reclaimed from treason? We do not know of one. Has not this policy been tried long enough? Has not the old man thrown grass at the young scape grace in the apple tree a sufficient length of time to induce the venerable gentleman to try what virtue there is in stones? This is coming to be the opinion of a great many "plain people," and they hope to see a changed policy soon. While they so believe, they are still patient under the other fruitless method so long pursued, and will withhold nothing from the government, necessary to the prosecution of the war even upon principles that do not seem to them to pay. These "plain people" want the rebels struck where they are weakest—they want the property of traitors taken and used whenever and wherever necessary to accomplish the suppression of this infamous rebellion, without reference to any "institution" which stands in the way, whose destruction may aid in saving the life of the nation. They believe they should be treated as *enemies in war*, and that they should take *all* the responsibilities of that position—no more, no less.

THE MONITOR.—This is the title of a democratic paper, the publication of which has just been commenced in this city by Palmer Brothers & Co. The mechanical appearance of the paper is neat and creditable. Before we take further notice of our cotemporary we should like an explanation of the article headed, "Not Guilty." Do you charge us with "conspiracy and rebellion" against the government? Such seems to be the drift of the article referred to. We want to know what you mean, in distinct and unmistakeable language, leaving nothing covered up by dark insinuations. It will not require a long, equivocating reply, but you can answer, yes or no, as your intention and meaning is. We shall then know whether to treat you as a courteous opponent, or an unscrupulous personal and political enemy.

ILL.—Ex-President Van Buren, (now eighty years old,) is suffering from a dangerous affection of the throat, or bronchial organs.

Gen. Butler's General Order, No. 28.

The New Orleans Delta publishes the following order from Gen. Butler relative to the women—explanatory and re affirmatory of the famous general order No. 28:

HEADQUARTERS DEPARTMENT OF THE GULF, }
NEW ORLEANS, May 10th, 1862. }

SIR. There can be, there has been, no room for misunderstanding General Order No. 28.

No lady will take any notice of a strange gentleman, and *a fortiori* of a stranger, simply in such form as to attract attention. Common women do.

Therefore, whatever woman, lady or mistress, gentle or simple, who, by gesture, look or word, insults, shows contempt for, thus attracting to herself the notice of any officers and soldiers, will be deemed to act as becomes her vocation as a common woman, and will be liable to be treated accordingly. This was most fully explained to you at my office.

I shall not, as I have not, abated a single word of that order; it was well considered; *if obeyed, will protect the true and modest woman from all possible insult. The others will take care of themselves.*

You can publish your letter, if you publish this note, and your apology.

Respectfully, BENJ. F. BUTLER.
Major General Commanding.
JNO. T. MONROE, Mayor of New Orleans.

THE 12TH AND 13TH REGIMENTS.—A soldier belonging to the 12th Wisconsin, writing to the Madison Journal says that their present camp is on the Obion river, six miles south of Union City, Tennessee, where they are rebuilding a railroad bridge, and will most likely stay there some weeks. The 13th is with them. He says:

The 15th Wisconsin and 7th Wisconsin Battery have come to Union City since we left. Every foot of our march since leaving Columbus, has been through very heavy timber, with but few clearings, and these occupied by a most ignorant people. One woman asked a soldier what state Wisconsin was in. Many had fled from their homes at our approach, and they were *losers* by it I assure you. Passed several wheat fields in some of which harvesting was progressing, but the tools and manner of using them provoked extreme mirth among the boys, yet the poor citizens acknowledge that they had never heard of any other but the old-fashioned "pigeon-wing" cradle, and as for a two horse reaper, you might as well have spoken a of flying reaper. Everything is one hundred years behind us in Wisconsin, and the boys are drawing most unfavorable comparisons between them,

Oh, there's nothing like Wisconsin,
My loved Wisconsin home.

ALL SORTS OF PARAGRAPHS.

HUMPHREY MARSHALL.—The Washington Republican says it knows positively that Humphrey Masball, with additional forces from East Tennessee, has been lately in the valley of Virginia.

☞ Vincent Colyer the teacher of negro children at Newberne, North Carolina, sailed from New York on Monday, to return to that place, where he will for the present devote himself to the white children.

FORT MORGAN NOT CAPTURED.—A Washington dispatch say that there is no truth in the report of the capture of Fort Morgan. Dates to the navy department from New Orleans and Ship Island are several days latter than the date of the alleged capture.

ANOTHER IRON-CLAD STEAMER.— On Tuesday, at Jersey City, the keel of another monster iron-clad war vessel was laid, and the work on her is to continued day and night until she is finished by a force of nearly 500 men. The plan is, in many respects, similar to the Monitor. She is to be an iron-clad shot-proof steam floating battery, to be constructed with steam machinery and turret, completely ready for service.

A COOL OFFER.—Boulton, the man who is to suffer death at Niagara, on the gallows, has written a letter to a medical gentleman of that town, offering to sell him his body after his death.

The St. Louis Democrat says that men are at large in Missouri who boast that they can take the oath of allegiance at breakfast, dinner and supper, and "clean out a Lincolnite to go to bed on."

The sugar beet, so successful in France, has been planted in Illinois, and a thousand acres of it will be grown this years.

The navy of the Mississippi river will soon number one hundred war vessels, consisting of gunboats, mortar boats and rams.

☞ A resolution has passed in the house of representatives, on the motion of one of those members, who smell a negro afar off, inquiring if Gen. Banks permitted Africans to ride in the wagon train, while soldiers were compelled to walk. A correspondent of the New York Herald answers the inquiry in advance. Gen. Banks, it appears, permitted a little colored girl, who had walked thirty miles, to ride on a caission. That was a small foundation for a congressional resolve.

☞ A couple of speculators at Nashville have been brought up with a jerk by Gen. Mitchell. They visited some plantations; said they had orders from General Mitchell to procure cotton; offered $20 per bale; if that was not accepted they would take the cotton anyhow. They were successful in some cases; but the matter was reported to the general, who brought up the sharpers, compelled them to pay the planters $80 per bale, and having done that they were thrown into jail for lying and swindling.

THE PROPER CREDIT GIVEN.—The special correspondent of the Chicago Tribune, at Corinth, thus corrects a misstatement previously made in relation to the charge upon the enemy's works by our 8th regiment on the 28th May, near Corinth:

In a narrative of the events preceeding the occupation of Corinth, I learn that credit was given to the 5th Minnesota for a brilliant bayonet charge, which in reality belonged to the 8th Wisconsin, Col. Murphy. The information previously telegraphed was derived from Major Love of the 2nd Iowa cavalry.

Judge Edwin Wheeler, of Oshkosh, is holding the present term of the Circuit Court at Janesville. His fair and impartial manner in the trial of causes, and his ability and soundness as a judge have won for him commendation and general respect from the members of the bar and suitors at court. It has been quite a business term —a large number of criminal and civil cases having been disposed of.—*Beloit Journal.*

Last Night's Report.

WASHINGTON, June 20.

The president has approved of the bill securing freedom in all the present as well as the future territory of the United States.

The secretary of war, in response to the resolution of the house, says that he is directed by the president to inform that body that measures have been taken to appropriate for hospital purposes, for the benefit of our soldiers, Gen. Lee's mansion house and premises.

FORT MONROE, June 19.

The pretended Union citizens of Norfolk have been acting in a manner, of late, to prejudice many against the cause. Instead of remaining quiet and peaceable they get into brawls and fights. Such men are set down as office seekers. Gen. Viele has determined to punish the offenders.

WINCHESTER, June 20.

A number of sick and wounded soldiers from Gen. Shield's command arrived here to-day. It is stated that they are to be sent forward to Frederick or Harrisburg. Nothing of interest has been announced from Gen. Fremont's department.

MEMPHIS, June 18.

The Richmond Dispatch in an account of a reconnoisance under Gen. Stewart, on the 15th says:

He made a circuit through the federal lines from Richmond via Hanover Court House, Old Church and Tunstalls to James river and back to the city. Captured 175 prisoners and 300 horses and mules.

PHILADELPHIA, June 20.

A private letter, received here, states that Gen. Buel has started with his whole army for East Tennessee, via Huntsville. Another private letter from New Orleans says the report published in New Orleans of the surrender of Fort Morgan is incorrect.

WASHINGTON, June 20.

The president has nominated to the senate Col. Jno. Cochrane and Gustavus Adolphus Scrogg, both from New York, to be brigadier generals of volunteers.

Gen. McDowell, when thrown from his horse, Wednesday, was so stunned that it was feared the accident would prove fatal, but the report to-day concerning him is that he will not long be delayed in resuming the saddle.

Dispatches have been received here that on the 17th inst. the rebels opened fire upon our ships of war in James river, from the bluff at City Point, by artillery and small arms, but our squadron returned the attack with shells and schrapnels, silencing and driving back the rebel force.

CHICAGO, June 20.

Returns from the election on Tuesday come in very slowly. Dispatches from some southern counties, to-night, renders it nearly certain that the new constitution is defeated. The majority against it in the northern part of the state is thus far 23,-000.

WINCHESTER, June 19.

Advices from Front Royal state that Shields had succeeded in concentrating his army at Strasburg. His rear guard left Suray one hour before it was entered by Ewell's advancing column. It is believed that Ewell now occupies Luray with a heavy force. Arrivals, to-night, from New Market bring intelligence that Fremont was about advancing seven miles south of Mount Jackson, opposite the gap in the Massanitten Mountains through which a road leads to Luray. Jackson is believed to have a large force of light troops in Harrisonburg, and another body at or near Port Republic. Prisoners report White's division of 1,500 within supporting distance of Port Republic. At the battle of Port Republic the 7th Louisana and 7th Indiana were opposed to each other at pistol range. The former left the field having only 36 men unhurt.

MEMPHIS, June 18, P. M.

A squad of five confederate cavalry was captured by our pickets in the suburbs of the city yesterday. They belonged to Jackson's cavalry, which has been engaged in burning cotton in the border counties of Mississippi.

Col. Slack and Provost Marshal Gould have given official notice, this a. m., that persons who insult or use violence towards loyal citizens will be shot down on the spot. Four hundred and ten persons, two-thirds of whom had been confederate soldiers, took the oath yesterday.

An extravagant rumor was current yesterday that there had been a fight at Vicksburg, in which the rebel gunboat Arkansas coming out of the Yazoo river, had run into and sunk the United States sloop-of-war Brooklyn.

It is definitely ascertained now that Grenada is being evacuated, and that Beauregard is stationed about 10 miles south of Meridian, Miss., on the M. & O. railroad. He has about 35,000 men.

The rebels are taking everything in the shape of railroad rolling stock with them, and it will be destroyed sooner than surrendered.

Southern advices, through southern sources, from Virginia, consist principally of a great victory claimed for Jackson.

WASHINGTON, June 20.

A deputation representing the society of Progressive Friends, mostly of Philadelphia, presented a memorial to the President to day, asking him to issue a proclamation *abolishing slavery throughout the land.*—The memorialists reminded the President of his speech in 1858, in which he said he did not believe that this country could remain half slave and half free, but either the lovers of slavery or the lovers of freedom must eventfully succeed in making the nation all free or all slave. The President said; "*I never said anything after more careful consideration. My opinions are the same now.*"

The deputation were much gratified with the President's response, and told him they should support the administration.

Col. Turchin, 18th Illinois, Col. Briggs, of Massachusetts, and Col. John Cochrane of New York, have been nominated brigadier generals.

The committee of conference on the tax bill would have reported to the house to day but for the early adjournment. There has been no agreement on the question of repealing the direct tax of the law of the extra session. In the Senate a number favor the repeal and are opposed in the House. The question will be left to the two houses to decide.

There has been no motion to reconsider the passage of the resolution paying Gales & Seaton the $35,000, although strenuous efforts were made and offers looking to such purchase.

The committee on the conduct of the war resumed their labors to day, examining six witnesses. Among them was Gen. Doubleday. The general subject of inquiry was as to rebel property and its treatment by our generals. The mayor of Alexandria stated before the committee that there were not more than 600 loyal persons in the city. He proposed the draft of a bill providing that all disloyal persons who left Alexandria before Ellsworth was killed, and have since returned, be required to take the oath of allegiance under penalty of banishment from the city or imprisonment.

The mayor also called on the secretary of war to urge the confiscation of property worth half a million, belonging to one Dangerfield, a notorious rebel, who is believed to have communications with the enemy. The secretary of war said he gave Dangerfield a pass within our lines on the word of Reverdy Johnson, his father-in-law, and other well known loyal persons, but would investigate the matter.

The new tariff introduced to-day imposes duties fixed in conformity with the tax bill. One agreed upon by the committee of conference on cotton, is fixed at half a cent per pound.

MEMPHIS, June 19, via CAIRO, 20.

Special to Chicago Tribune.—The Argus publishes Chattanooga news to the 13th inst. from Mobile papers; it says the enemy's force of infantry, cavalry and artillery under command of the Federal Morgan, is reported to have crossed Big Creek Gap yesterday. This movement brings them into Powell's Valley, twenty miles west of Cumberland Gap, thus threatening that point in the rear as well as Knoxville. Our forces are preparing to meet them. 500 of the enemy's cavalry were reported at Battle Creek, this morning, 27 miles from Chattanooga on the opposite side of the river. It is supposed that the enemy's intention is to invade East Tennessee from both sides at chief points. Every effort will be made to hold Chattanooga.

ST. LOUIS, June 20.

Our merchants are beginning to receive word that the first efforts to renew trade with Memphis have been over-done. Many articles are as cheap there under the influence of rivalry between St. Louis, Cincinnati and Louisville, as here. While cotton and sugar are held at New York prices, and only Tennesse money is available, and that only by converting into sugar or cotton that even this can be used.

Forty prisoners from Gen. Curtis' army came in to-day by the Iron Mountain railroad. One of them was formerly a land agent of the government, who turned over the funds to the rebels when Arkansas seceded.

To-Day's Report.

[Reported Exclusively for the Daily Gazette.]

MORNING DESPATCHES.

SEVEN PINES, June 18.

Tribune's correspondence.—At noon, to-day, intelligence was communicated from the front that the enemy, 30,000 strong, was in line before Hooker's advanced position. At half past four o'clock, under Hooker's order, the 16th Massachusetts went into the deep swampy road, and other regiments took up the line of battle upon the edge of the timber, out of which burst upon us unequal numbers and death on the 31st of May. The musketry fire was soon sharp within the leafy fastness, sharp and strong. Bramball's battery sent spiral case shot over the wood into the rebel picket ground to assist the infantry skirmishers. This artillery fire was not replied to for a half an hour, and then only from the far right. It was Armsted's brigade that was in front of us, to-day. In one spot six rebel dead lay together. We drove their whole picket line in half a mile. Three men of the 16th were killed and eight wounded.

RICHMOND, WEDNESDAY, June 18.

Times correspondent.—Another fine day. Every day of sunshine advances the fall of Richmond though three days rain might postpone it essentially. The roads are becoming hard, the surface of the earth in the fields, except in low spots is practicable for artillery. We had very brisk picket firing last night in front of a point half a mile north of Fair Oak's station. Our side sustained no damage. This morning everything is quiet again. It is reported by deserters that heavy reinforcements have been sent from Richmond to Jackson in the Valley of the Shenandoah.

Another correspondent writing some under the date says;

I am positively assured by parties who are reliably imformed, that the life of the arch traitor Jeff Davis is in extreme danger. The rebels are looking upon him with the utmost suspicion. It was even avered that he was prevented by an armed force from escaping out of Richmond. He is the object of general distrust. Hand bills in every variety are displayed all over the city denouncing Jeff. Davis, and applying to him ridiculous and opprobious epithets. The rebels declare it is the intention of Davis to desert them. Numerous persons have been arrested and confined for rebelling against the authorities at Richmond.

WASHINGTON, June 20.

Special to Tribune.—The Pacific railroad bill passed the Senate, to-day, with five negative votes. The main route which it fixes is to commence at a point on the 100th meridian of longitude within the territory of Nebraska. Of the branches, one commences at Sioux City, and another point on the western boundary of Iowa, which will probably be at or near Omaha City, or the mouth of Platte River. Both of these branches to be constructed by the Union Pacific Company, which constructs the main road. The Kansas branch commencing opposite Kansas City, is to be constructed by a Kansas company, and with this branch the Hannibal and St. Joseph road is authorized to form a connection. The main road is to run by the most direct and practicable route, to be located subject to the approval of the President. By the House bill the road was to commence on the 102d meridian, and the terminus was not necessarily within the territory of Nebraska, but probably the House will agree to the Senate amendment. There is little doubt of the final passage of the bill, substantially as passed by the Senate.

The Herald's Washington dispatch says it is now definitely settled that congress will adjourn between the 1st and 10th of July. The first instance of the arrest of a colored man for abetting the enemy occurred to-day. It had been stated that he volunteered as a guide and spy for Jackson in his late advance. He was confined for further investigation. Gen. Sigel has been in command of the Shenandoah department during the temporary absence of Gen. Banks, who returns to-morrow. The bridge over the Potomac at Harpers Ferry has been rebuilt, and cars run regularly.

NEW YORK, June 21.

The government has no official intelligence confirming the report of the capitulation of Fort Morgan near Mobile.

FREDERICKSBURG, June 19.

In the fight at Port Republic Col. Carroll's artillery used nothing but canister and grape, and when the enemy came too near to use these the men used their revolvers with telling effect. Col. Carroll led three respective charges to the support of the 6th Indiana, driving the enemy back.

AFTERNOON DESPATCHES.

MEMPHIS, June 19.

An expedition composed of the gunboats St. Louis, Lexington, Canestoga and Mound City, accompanied by transports carrying the 43d and 46th Indiana regiments, under Col. Fitch, was sent from here some days since for the purpose of removing obstructions from White River. On the 17th the expedition reached St. Charles, 85 miles above the mouth, where rebels had erected a battery. An engagement ensued lasting an hour and a half. While the gunboats engaged the battery the troops under Col. Fitch landed a short distance below, and proceeded to storm the place. During the cannonading a ball entered the boiler of the Mound City, causing a fearful explosion and loss of life. The crew consisted of 175, of whom nearly 125 were killed and wounded. The following officers are among the killed: John Kinzie, Jas. Scoville, Jno. Green, Henry R. Brown, Joseph Nixon, Jno. Coxie and Capt. Kilty. The flag officer is badly scalded, and it is thought he will recover. Col. Fitch's charge upon the battery was a perfect success, driving the enemy out at the point of the bayonet. The rebel loss was 125 killed and wounded and 30 prisoners. Col. Fitch's loss was small.

Gen. Halleck has occupied Halley Springs.

CAIRO, June 21.

Col. Ellet, of the ram fleet, died here this morning, from wounds received in the engagement before Memphis.

BOSTON, June 21.

Passenger depot of the Eastern railroad was destroyed by fire, to day.

WASHINGTON, June 21.

Maj. Gen. Pope, who has so greatly distinguished himself by his operations in the west, is expected shortly to be in Washington, at the invitation of the government.

FORT MONROE, June 20.

The fleet in James river remains as previously reported, quietly at anchor above City point. Gen. Dix proceeded to New Point Comfort, this morning, to make arrangements for the new hospitals there. This, as well as White House Point, is in his lines.

WASHINGTON, June 21.

Yesterday a delegation of Progressive Friends of Philadelphia called on the president and presented a memorial, signed numerously, for the universal emancipation of slaves. The president replied to the accompanying address, as a gentlman who was present remarked, in guarded language.

The committee of conference on the bill to provide internal revenue have nearly accomplished their report.

NEW YORK, June 21.

The United States gunboat Connecticut, Commander Woodhull, arrived this morning from ports on the southern coast, bringing dates from Mattagorda Bay to June 2d, Mobile Bar 7th, Pensacola 8th, Cedar Keys, Tampa Bay and St. Marks 9th, Key West 14th, Port Royal 18th, and Fort Monroe 20th. She brings a large mail from the squadron and 67 sick and wounded from the various ports, principally those from New Orleans, who were wounded in capturing the forts below that place. Nothing of importance had transpired at Mattagorda Bay. The mortar boats were preparing to take the forts at Mobile. At Cedar Keys all was quiet. General Branon, with his entire force, had been ordered from Key West to Hilton Head.

CORINTH, June 19.

The telegraph north was prostrated in the early part of the week by heavy storms. Our army has returned from Boonville and now occupies a more southern position.—General Pope gone north on a furlough.

The Memphis and Charleston railroad is in running order, eastward to Tuscumbia, and westward to Cypress Creek, 50 miles from here. The Mobile and Ohio railroad running north to Jackson, and railroad communication open to Grand Junction via Jackson. The road west from the Junction is reported badly damaged. All railroad telegraphs are in good condition.

Major General Ord, Brig. Generals Hulvin and Hamilton have arrived. Considerable union sentiment exists in western Tennessee, especially in Boliver and Jackson. Beauregard's army at last accounts was at Okolona, 80,000 strong, 20,000 men under Ruley Smith at Chatanooga, 15,000 under Price and Van Dorn, at Fulton, and a small cavalry force at Grenada, Mississippi.

JAMES ISLAND, S. C. }
EIGHT MILES BELOW CHARLESTON, June 7. }

DEAR M.—We arrived at this place on Tuesday last, at 3 p. m. Our company was advanced as skirmishers as soon as we landed, and very soon fell in with the rebels: in fact they went out through the back door as we went in the front. We were very close on them, and in some places our appearance was so sudden that they ran and left a number of their rifles. We kept advancing until they were driven back four miles, when we were in full sight of Charleston. A line of pickets was established and we fell back a little. The next day we advanced. The 28th Massachusetts had a skirmish with the rebels, but they did not stand the enemy's fire. Orders were then sent to companies C and E of our regiment (79th) to advance. We did so, for a short distance, without firing, and then drew up and gave them a full volley, with the order "double quick—charge!" Our men, with a shout, gave them a charge that drove them like sheep. These two companies gained more than the 28th lost.

All this time we were under heavy fire of infantry and shell, some of the latter coming closer than was comfortable. As for rifle balls, they were singing round us all the time.

After driving the enemy back, we took a rest. I was sent out with three other men to reconnoitre. After going three-quarters of a mile, I discovered a group—six cavalry and one infantry. We opened fire and drove them back. Three more of our men came and joined us. I deployed them, and, when just ready to advance, one of General Stevens' staff rode up with orders for me to fall back.

About half an hour after, we discovered a battery of three guns. We took three companies and started to capture it, taking the ropes which the rebels had used for drawing them in position. This was done in fine style, putting one company to each gun, and started on in fireman fashion. Such hallooing, and "Give way, boys!" I never heard in all my experience in engine racing. We were cheered at every point as we passed by the rest of our men. We have the guns in camp, and to say our boys are proud of them would be unnecessary.

We had plenty of visitors, including Gens. Benham, Hunter and Wright; the latter arrived with his brigade. Our forces here are about 10,000, all told. Prof. Lowe is here with his baloon, which he is now inflating, and will make a reconnoisance today. We will have plenty to do until we get in Charleston. Fort Sumter is in full view, with a rebel flag flying over it. My prayer is that the glorious stars and stripes may replace it, which, I have no doubt, will be soon. Respectfully, yours,

J. KINNEAR, Co. E. 79th Reg.

THE WHOLE TRUTH ABOUT IT.—There seems to be some misapprehension on the part of the public, relative to the objects and results of Gen. Negley's recent expedition to Chattanooga. Its object we understood, was simply to make a demonstration in force on that point, for the sake of the effect which it was reasonable to suppose it would have on that portion of the rebel army stationed at Cumberland Gap. He whipped and routed Adams in Sweden's Cove, and taking position on this side of the river, opposite Chattanooga, he made them *skedaddle* out of the city in true southern style. They burnt the railroad bridges as they fled to prevent a pursuit never intended to be made. The federals did not cross the river into the city, but returned to Huntsville.

About 80 pestilent rebel citizens of that section were arrested, as has been before stated, and are now at Shelbyville, we believe. So, it will be seen, that East Tennessee has not been liberated, and it is little less than cruel mockery on the part of our more northern cotemporaries to publish it.

FEDERAL TROOPS ENGAGED AT CHATTANOOGA.

The federal forces engaged in the second day's fight at Chattanooga, were the

Edgarton Ohio Battery.
Hewitt's Kentucky Battery.
Ninth regiment Michigan infantry, Col. Parkhurst.
Thirty-eighth Indiana infantry, Colonel Scribner, and
First Wisconsin infantry, Maj. Brigham.

This day's fight lasted six hours, and resulted in the enemy abandoning their battery and evacuating the city. The gallant conduct of our officers and men is everywhere calling forth commendations.—*Nashville Union, June 17.*

JACKSON'S STATUE AT MEMPHIS.—A correspondent writing from Memphis, June 6th, says:

"Passing through Court Square we came upon the statue of Jackson, defaced at night a year ago, among the opening acts of secession's ill-played tragedy. Its inscription, 'The Federal Union, it must and shall be preserved,' has been marred by a chisel, the word 'Federal' and first two letters of 'Union' being chipped out. The features of the old hero, with their determined lines, are yet undefaced."

Five Dollars Reward!

ON or about the 5th day of June, 1862, a letter containing a daguerreotype, directed to Mrs. Beriah or Mrs. B. Now as this picture can be of no value to any person other than the parents, it being that of a deceased child, I will give the above reward to any person returning it to this office, or to any one giving information that will lead to its recovery.

A Slight Cold,

☞ The frost was quite severe in western New York on Sunday night, so much so as to cut down the corn and potatoe crops in many localities. In the west we have heard of no damage being done, although there was a slight frost in many places.

COMMENCEMENT AT BELOIT COLLEGE.—The exercises of the annual commencement of Beloit College will take place on Wednesday, July 9th. Connected with these, the other exercises of commencement week will be as follows:

Baccalaureate sermon, by President Chapin, Sabbath afternoon.

Address before the Missionary Society, by Rev. A. Swazey, of Chicago, Monday evening.

Prize declamation by members of the Sopomore and Freshman classes, Tuesday afternoon.

Exercises of the society of the Alumni, Tuesday evening. Oration by Rev. J. Collie, of Delavan; Poem by Mr. Alexander Kerr, of Roscoe, Ill.

The Beloit Journal says:

The graduating class numbers sixteen—the largest the college has yet sent out.—This circumstance will render the occasion one of unusual interest, and is regarded by the friends of the Institution as one among the many signs of steady growth. The college, even in the times of trouble, and though it has given several members to the army of the country, was never in so hopeful a condition as now. A cordial invitation is hereby extended to the friends of the graduating class, as to citizens of Beloit and the neighboring region generally, to be present and join in our literary festivities.

On commencerment day, besides the performance of the graduates, the Master's Oration will be delivered by O. A. Willard, of Janesville. A college dinner is talked of.

☞ Since the copious rains, the farmers are getting over their "big scare" about the wheat crop. The general testimony is that it looks well.

COL. J. C. FAIRCHILD.—Col. J. C. Fairchild of Madison, lies in a very critical condition of illness, and it was feared he would scarcely survive during the day yesterday. So says the Milwaukee Sentinel.

A DEVOTED WOMAN.—It is stated that Mrs. Henry Baylis, the wife of a New York merchant, has left a home of affluence and ease, and is now devoting her whole time and energies to the relief of the sick and wounded soldiers at Yorktown. She has not only volunteered to endure the privations and discharge the disagreeable duties of hospital life, but she has studied the profession of surgeon and nurse so that she can care for a wounded limb equal to any of the surgeons of the army.

BATHS.—A. J. Harris the barber, is prepared to accommodate persons with warm or cold baths at all times, in the basement at the west end of the upper bridge.

SHOULD SUCH THINGS BE TOLERATED?—At a pic nic recently held at Carlinville, Illinois—so says the Free Democrat of that place—the man who presided at the table openly invited "all secessionists and democrats" to partake, except three ladies and one gentleman, who were for the Union. Remarks were made eulogizing the confederates and their army, and, on motion of a man who is said to have been obliged to leave Kentucky on account of his secessionism, the whole company (excepting the four Unionists referred to, of course,) *gave three rousing cheers for Jeff. Davis.* To add insult to treason, the same man then proposed three cheers fo · t be Lincoln," which was responded to by *groans*—the four Unionists alone cheering. "These are facts," says the Free Democrat, "which can be abundantly proved. Union-loving readers can make their own comments."

An exchange has the following, as an excellent system of gardening for ladies:

"Make up your beds early in the morning; sew buttons on your husband's shirts; do not rake up any grievances; protect the young and tender branches of your family; plant a smile of good temper in your face; and carefully root out all angry feelings, and expect a good crop of happiness."

HOME INSURANCE COMPANY,

OF

New York.

Cash Capital and Surplus Over $1,500,000.00.

CHAS. J. MARTIN, President. A. F. WILMARTH, Vice President.
JOHN M'GEE, Secretary.

E. L. DIMOCK, Agent, for Janesville and vicinity.

The Wall Street Underwriter, for April, has the following:

HOME INSURANCE COMPANY OF NEW YORK.—The annual statement of this our foremost local fire company, made up to the 1st of January last shows a condition of such positive strength and prosperity as to challenge unqualified admiration. In a circular accompanying the statement, subscribed by Charles J. Martin, president, A. F. Willmarth, vice-president, and John McGee, secretary, those well accredited officers very justly say: "The well-known reputation of the HOME, for fair and honorable dealing, together with its capital of ONE MILLION DOLLARS, and surplus of about half a million in addition, all well invested, commend it to the special favor of all who desire reliable protection in the way of insurance, either fire or inland."

This is not saying one word too much for their company. The HOME is the crack company of our state, in high credit all over the Union, worked upon a comprehensive plan, and managed with admirable skill and efficiency. The assets of the HOME on the 1st of January last summed up to $1,521,268.08, against an actual liability of only $55,080.43! and moreover it is worth noting that the assets are all of the very first class. The balance in bank in cash was $124,434.14, very nearly enough to set up an ordinary company, bonds and mortgages $910,219.53, secured on real estate worth $1,715,900, and then government and other stocks, equivalent to cash and convertible into cash any day, $320,636. Any one who is not satisfied with the security of the HOME as an insurance institution must be hard to please.

In 1861 the HOME wrote $106,715,148.60, taking $829,903 premium, and paid losses $535,775, including some losses for the year 1860. A dividend of 10 per cent was paid on the million capital; and after reserving an ample reinsurance fund the company shows a "net surplus" of $160,641, clear over capital and all claims, actual or possible, practical or theoretical.

The HOME is a good "testimony" in all places to the enterprise, energy and progress of the city of New York.

TO OUR PATRONS.

We take pleasure in laying before you the Eighteenth Semi-Annual Report of the affairs of this company, with a comparative statement of its progress from year to year, together with a statement of the dividends declared to customers, the amount of Scrip Fund representing such dividends, and the *net surplus* accumulated, since the plan of allowing the customers of this company to participate in the profits of the business was adopted: from which it is apparent that by the system pursued the customers of the company obtain a *constantly increasing* SECURITY at the smallest possible expense, and that this is obtained WITHOUT ANY LIABILITY WHATEVER TO THE INSURED.

The Net Surplus of the company, January 1, 1862, over and above all liabilities, after reserving a sum sufficient to re-insure all outstanding risks, was $428,287.24.

The company having reserved the right to issue non-participating policies, is prepared to issue such policies to persons desiring them, at rates as LOW AS ANY COMPANY can insure, and at the same time offer security worthy of the name.

The managers tell us that it is not to be a German party exclusively. The programme of dances will comprise a variety that will be agreeable and pleasant to all. je21daw1t

☞ The frost was quite severe in western New York on Sunday night, so much so as to cut down the corn and potatoe crops in many localities. In the west we have heard of no damage being done, although there was a slight frost in many places.

COMMENCEMENT AT BELOIT COLLEGE.—The exercises of the annual commencement of Beloit College will take place on Wednesday, July 9th. Connected with these, the other exercises of commencement week will be as follows:

Baccalaureate sermon, by President Chapin, Sabbath afternoon.

Address before the Missionary Society, by Rev. A. Swazey, of Chicago, Monday evening.

Prize declamation by members of the Sopomore and Freshman classes, Tuesday afternoon.

Exercises of the society of the Alumni, Tuesday evening. Oration by Rev. J. Collie, of Delavan; Poem by Mr. Alexander Kerr, of Roscoe, Ill.

The Beloit Journal says:

The graduating class numbers sixteen—the largest the college has yet sent out.—This circumstance will render the occasion one of unusual interest, and is regarded by the friends of the Institution as one among the many signs of steady growth. The college, even in the times of trouble, and though it has given several members to the army of the country, was never in so hopeful a condition as now. A cordial invitation is hereby extended to the friends of the graduating class, as to citizens of Beloit and the neighboring region generally, to be present and join in our literary festivities.

On commencement day, besides the performance of the graduates, the Master's Oration will be delivered by O. A. Willard, of Janesville. A college dinner is talked of.

☞ Since the copious rains, the farmers are getting over their "big scare" about the wheat crop. The general testimony is that it looks well.

COL. J. C. FAIRCHILD.—Col. J. C. Fairchild of Madison, lies in a very critical condition of illness, and it was feared he would scarcely survive during the day yesterday. So says the Milwaukee Sentinel.

A DEVOTED WOMAN.—It is stated that Mrs. Henry Baylis, the wife of a New York merchant, has left a home of affluence and ease, and is now devoting her whole time and energies to the relief of the sick and wounded soldiers at Yorktown. She has not only volunteered to endure the privations and discharge the disagreeable duties of hospital life, but she has studied the profession of surgeon and nurse so that she can care for a wounded limb equal to any of the surgeons of the army.

BATHS.—A. J. Harris the barber, is prepared to accommodate persons with warm or cold baths at all times, in the basement at the west end of the upper bridge.

SHOULD SUCH THINGS BE TOLERATED?—At a pic nic recently held at Carlinville, Illinois—so says the Free Democrat of that place—the man who presided at the table openly invited "all secessionists and democrats" to partake, except three ladies and one gentleman, who were for the Union. Remarks were made eulogizing the confederates and their army, and, on motion of a man who is said to have been obliged to leave Kentucky on account of his secessionism, the whole company (excepting the four Unionists referred to, of course,) *gave three rousing cheers for Jeff. Davis.* To add insult to treason, the same man then proposed three cheers for Abe Lincoln," which was responded to by *groans*—the four Unionists alone cheering. "These are facts," says the Free Democrat, "which can be abundantly proved. Union-loving readers can make their own comments."

An exchange has the following, as an excellent system of gardening for ladies:

"Make up your beds early in the morning; sew buttons on your husband's shirts; do not rake up any grievances; protect the young and tender branches of your family; plant a smile of good temper in your face; and carefully root out all angry feelings, and expect a good crop of happiness."

HOME INSURANCE COMPANY,

OF

New York.

Cash Capital and Surplus Over $1,500,000.00.

CHAS. J. MARTIN, President. A. F. WILMARTH, Vice President.
JOHN M'GEE, Secretary.

E. L. DIMOCK, Agent, for Janesville and vicinity.

The Wall Street Underwriter, for April, has the following:

HOME INSURANCE COMPANY OF NEW YORK.—The annual statement of this our foremost local fire company, made up to the 1st of January last shows a condition of such positive strength and prosperity as to challenge unqualified admiration. In a circular accompanying the statement, subscribed by Charles J. Martin, president, A. F. Willmarth, vice-president, and John McGee, secretary, those well accredited officers very justly say: "The well-known reputation of the HOME, for fair and honorable dealing, together with its capital of ONE MILLION DOLLARS, and surplus of about half a million in addition, all well invested, commend it to the special favor of all who desire reliable protection in the way of insurance, either fire or inland."

This is not saying one word too much for their company. The HOME is the crack company of our state, in high credit all over the Union, worked upon a comprehensive plan, and managed with admirable skill and efficiency. The assets of the HOME on the 1st of January last summed up to $1,521,268.08, against an actual liability of only $55,080.43! and moreover it is worth noting that the assets are all of the very first class. The balance in bank in cash was $124,434.14, very nearly enough to set up an ordinary company, bonds and mortgages $910,219.53, secured on real estate worth $1,715,900, and then government and other stocks, equivalent to cash and convertible into cash any day, $320,636. Any one who is not satisfied with the security of the HOME as an insurance institution must be hard to please.

In 1861 the HOME wrote $106,715,148.00, taking $829,903 premium, and paid losses $535,775, including some losses for the year 1860. A dividend of 10 per cent was paid on the million capital; and after reserving an ample reinsurance fund the company shows a "net surplus" of $160,644, clear over capital and all claims, actual or possible, practical or theoretical.

The HOME is a good "testimony" in all places to the enterprise, energy and progress of the city of New York.

TO OUR PATRONS.

We take pleasure in laying before you the Eighteenth Semi-Annual Report of the affairs of this company, with a comparative statement of its progress from year to year, together with a statement of the dividends declared to customers, the amount of Scrip Fund representing such dividends, and the *net surplus* accumulated, since the plan of allowing the customers of this company to participate in the profits of the business was adopted: from which it is apparent that by the system pursued the customers of the company obtain a *constantly increasing* SECURITY at the smallest possible expense, and that this is obtained WITHOUT ANY LIABILITY WHATEVER TO THE INSURED.

The Net Surplus of the company, January 1, 1862, over and above all liabilities, after reserving a sum sufficient to re-insure all outstanding risks, was $428,287.24.

The company having reserved the right to issue non-participating policies, is prepared to issue such policies to persons desiring them, at rates as LOW AS ANY COMPANY can insure, and at the same time offer security worthy of the name.

A Great National Work.

Something for Every Citizen, Every Fireside,
Every Rader!
NO MAN, NO FAMILY, NO OFFICE SHOULD BE WITHOUT IT.
The only Correct and Complete
HISTORY OF THE WAR.
THE SOUTHERN REBELLION
and the
WAR FOR THE UNION:
A History of the
Rise and Progress of the Rebellion,
and
Consecutive Narrative of Events and Incidents, from the First Stages of the Treason Against the Republic down to the Close of the Conflict,
TOGETHER WITH IMPORTANT DOCUMENTS AND EXTRACTS FROM REMARKABLE SPEECHES.

In Weekly Parts, 32 pages, large 8vo, Price 10 Cents.

THE want of an *authentic* and *thorough* History of the Rebellion, *for* present reference and future preservation, is the subject of general remark. No work of that nature has yet been offered to the public, and all who wish for information are compelled to grope through the mazes of the rumors, reports, dispatches, letters and editorials of the daily newspapers, to *precipitate*, from its confused columns, the great facts and incidents of the struggle for the Union.

To meet this want, and to produce a *work of permanent value as well as of present interest*, the publisher has arranged for the issue of the history as above set forth—in a form and at a price which shall render it *acceptable to all*.

This history will tell the STORY AS IT IS, giving a clear, consecutive narrative of the entire movement, including all the incidents and events in their exact order, and containing the important documents and extracts from remarkable speeches. It will not be a mere diary, nor a mere enumeration of dry and naked dates, nor a compilation of slips from newspapers, but will portray in connected and interesting narrative, the revolutionary steps, as well as the measures of the government.

It will carefully digest all evidence—will sift all rumors and reports—will fix upon facts, and correct so far as possible the errors and discrepancies incident to the hasty narratives of the newspapers.

It will be written in a style suited to its theme—at once graphic, earnest and luminous, introducing such personal and social incidents as may serve to show the relations of individuals and communities to the grand events of the time.

It is true, everybody reads the newspapers, but the reports of the newspapers are the fragmentary and contradictory children of the moment, and not a *correct, connected* and *complete* history. The above publication, afterwards bound in a handsome volume, will be a book for the family, which will be valued like the records of the War of Independence, or the Life of Washington, and worthy to be kept for children and grand-children, as a memorial of the present time.

It will thus prove desirable, available and satisfactory to every citizen, every family, every office, every library: and is given to the public in the full assurance that it will command the approbation of every patriot, every Union man, every good citizen in our still Glorious Land.

GREAT REDUCTION

SINGER & CO.'S
STANDARD MACHINES,

Well known to be the best for

Manufacturing Purposes:

No. 1, Standard Shuttle Machine, formerly sold at $90,

Reduced to $70.

No. 2, Standard Shuttle Machine, formerly sold at $100,

Reduced to $7

Singer's Letter A Machine,

IS the best Machine in the world for Family Sewing and Light Manufacturing purposes; Price, (with Hemmer,) and beautifully ornamented,

FIFTY DOLLARS.

The Nos. 1 and 2 machines are of great capacity and application for manufacturing purposes.

Our No. 3 machines are especially adapted to all kinds of light and heavy

LEATHER WORK,

in Carriage Trimming, Boot and Shoe Making, Harness Making, etc., etc. They are of extra size, with an arm long enough to take under it and stitch the largest sized dashes. There is scarcely any part of a Trimmers' stitching that cannot be better done with them than by hand; so, too, the saving of time and labor is very great. The table under these machines is 24 inches long, and the shuttle will hold six times the usual quantity of thread. The large machines work as fast as small ones.

We would ask for our Letter A machines, the special attention of Vest Makers and Dress Makers, and all those who want machines for Light Manufacturing purposes. They embody the principles of the standard machines, making like them, the interlock stitch, and are destined to be as celebrated for Family Sewing and light manufacturing purposes as our standard machines are for manufacturing purposes in general.

We have always on hand

Hemming Guages, Silk Twist, Linen and Cotton Thread on Spools, Best Machine Oil in Bottles, etc., etc.

We manufacture our own Needles, and would warn all persons using our machines not to buy any others. We know that there are needles sold *of the most inferior quality*, at higher prices than we charge for the best. The needles sold by us are manufactured especially for our machines. *A bad needle may render the best machine almost useless.*

Our customers may rest assured that all our Branch Offices are furnished with the

GENUINE ARTICLE.

In case of small purchases, the money may be sent in postage stamps or bank notes.

Correspondents will please write their names distinctly. *It is all important that we should in each case know the post office, county and state.*

All persons requiring information about Sewing Machines, their size, prices, working capacities, and the best methods of purchasing, can obtain it by sending to us, or any of our Branch Offices for a copy of

I. M. SINGER & CO.'S GAZETTE,

which is a beautifully illustrated Pictorial Paper. *It will be sent Gratis*

We have made the above Reduction in Prices with the two fold view of benefitting the public and ourselves. The public have been swindled by spurious machines made in imitation of ours. The metal in them, from the iron casting to the smallest piece, is of poor quality. Their makers have not the means to do their work well. They are hid away in secret places, where it would be impossible to have at their command the proper mechanical appliances. It is only by doing a great business, and having extensive manufacturing establishments, that good machines can be made at moderate prices. The best designed machines, Badly Made, are always liable to get out of order, and are sure to cost considerable trouble and money to keep them in repair.

The qualities to be looked for in a machine are: *certainty of correct action at all rates of speed, simplicity of construction, great durability and rapidity of operation, with the least labor.* Machines to combine these essential qualities, must be made of the *best metal and finished to perfection*. We have the ways and means, on a grand scale, to do this.

The purchasers of machines, whose daily bread it may concern, will find that those having the above qualities not only work well at *rapid* as well as *slow* rates of speed, but *last long* in the finest possible working order. Our machines, *as made by us*, will *earn more money with less labor* than any others, whether in imitation of ours or not. In fact, they are cheaper than any other machine as a gift.

A Great National Work.
Something for Every Citizen, Every Fireside,
Every Rader!
NO MAN, NO FAMILY, NO OFFICE SHOULD BE WITHOUT IT.
The only Correct and Complete
HISTORY OF THE WAR.
THE SOUTHERN REBELLION
and the
WAR FOR THE UNION:
A History of the
Rise and Progress of the Rebellion,
and
Consecutive Narrative of Events and Incidents, from the First Stages of the Treason Against the Republic down to the Close of the Conflict,
TOGETHER WITH IMPORTANT DOCUMENTS AND EXTRACTS FROM REMARKABLE SPEECHES.
In Weekly Parts, 32 pages, large 8vo, Price 10 Cents.

THE want of an *authentic* and *thorough* History of the Rebellion, for present reference and future preservation, is the subject of general remark. No work of that nature has yet been offered to the public, and all who wish for information are compelled to grope through the mazes of the rumors, reports, dispatches, letters and editorials of the daily newspapers, to *precipitate*, from its confused columns, the great facts and incidents of the struggle for the Union.

To meet this want, and to produce a work of *permanent value as well as of present interest*, the publisher has arranged for the issue of the history as above set forth—in a form and at a price which shall render it *acceptable to all.*

This history will tell the STORY AS IT IS, giving a clear, consecutive narrative of the entire movement, including all the incidents and events in their exact order, and containing the important documents and extracts from remarkable speeches. It will not be a mere diary, nor a mere enumeration of dry and naked dates, nor a compilation of slips from newspapers, but will portray in connected and interesting narrative, the revolutionary steps, as well as the measures of the government.

It will carefully digest all evidence—will sift all rumors and reports—will fix upon facts, and correct so far as possible the errors and discrepancies incident to the hasty narratives of the newspapers.

It will be written in a style suited to its theme—at once graphic, earnest and luminous, introducing such personal and social incidents as may serve to show the relations of individuals and communities to the grand events of the time.

It is true, everybody reads the newspapers, but the reports of the newspapers are the fragmentary and contradictory children of the moment, and not a *correct, connected* and *complete history*. The above publication, afterwards bound in a handsome volume, will be a book for the family, which will be valued like the records of the War of Independence, or the Life of Washington, and worthy to be kept for children and grand-children, as a memorial of the present time.

It will thus prove desirable, available and satisfactory to every citizen, every family, every office, every library: and is given to the public in the full assurance that it will command the approbation of every patriot, every Union man, every good citizen in our still Glorious Land.

GREAT REDUCTION
—IN—
The Prices
—OF—
SINGER & CO.'S
STANDARD MACHINES,
Well known to be the best for
Manufacturing Purposes:

No. 1, Standard Shuttle Machine, formerly sold at $90,

Reduced to $70.

No. 2, Standard Shuttle Machine, formerly sold at $100,

Reduced to $7

Singer's Letter A Machine,

IS the best Machine in the word for Family Sewing and Light Manufacturing purposes; Price, (with Hemmer,) and beautifully ornamented,

FIFTY DOLLARS.

The Nos. 1 and 2 machines are of great capacity and application for manufacturing purposes.

Our No. 3 machines are especially adapted to all kinds of light and heavy

LEATHER WORK,

in Carriage Trimming, Boot and Shoe Making, Harness Making, etc., etc. They are of extra size, with an arm long enough to take under it and stitch the largest sized dashes. There is scarcely any part of a Trimmers' stitching that cannot be better done with them than by hand; so, too, the saving of time and labor is very great. The table under these machines is 24 inches long, and the shuttle will hold six times the usual quantity of thread. The large machines work as fast as small ones.

We would ask for our Letter A machines, the special attention of Vest Makers and Dress Makers, and all those who want machines for Light Manufacturing purposes. They embody the principles of the standard machines, making like them, the interlock stitch, and are destined to be as celebrated for Family Sewing and light manufacturing purposes as our standard machines are for manufacturing purposes in general.

We have always on hand

Hemming Guages, Silk Twist, Linen and Cotton Thread on Spools, Best Machine Oil in Bottles, etc., etc.

We manufacture our own Needles, and would warn all persons using our machines not to buy any others. We know that there are needles sold *of the most inferior quality*, at higher prices than we charge for the best. The needles sold by us are manufactured especially for our machines. *A bad needle may render the best machine almost useless.*

Our customers may rest assured that all our Branch Offices are furnished with the

GENUINE ARTICLE.

In case of small purchases, the money may be sent in postage stamps or bank notes.

Correspondents will please write their names distinctly. It is all important that we should in each case know the post office, county and state.

All persons requiring information about Sewing Machines, their size, prices, working capacities, and the best methods of purchasing, can obtain it by sending to us, or any of our Branch Offices for a copy of;

I. M. SINGER & CO.'S GAZETTE,

which is a beautifully illustrated Pictorial Paper. *It will be sent Gratis*

We have made the above Reduction in Prices with the two fold view of benefitting the public and ourselves. The public have been swindled by spurious machines made in imitation of ours. The metal in them, from the iron casting to the smallest piece, is of poor quality. Their makers have not the means to do their work well. They are hid away in secret places, where it would be impossible to have at their command the proper mechanical appliances. It is only by doing a great business, and having extensive manufacturing establishments, that good machines can be made at moderate prices. The best designed machines, Badly Made, are always liable to get out of order, and are sure to cost considerable trouble and money to keep them in repair.

The qualities to be looked for in a machine are: *certainty of correct action at all rates of speed, simplicity of construction, great durability and rapidity of operation, with the least labor.* Machines to combine these essential qualities, must be made of the *best metal* and *finished to perfection*. We have the ways and means, on a grand scale, to do this.

The purchasers of machines, whose daily bread it may concern, will find that those having the above qualities not only work well at *rapid* as well as *slow* rates of speed, but *last long* in the finest possible working order. Our machines, *as made by us*, will *earn more money* with *less labor* than any others, whether in imitation of ours or not. *In fact*, they are cheaper than any other machine as a gift.
